office meeting, project site visit, teleconference, video conference, etc. The responsible official should be a participant along with the reviewing officer in any objection resolution meeting. Meetings are not required to be noticed but are open to attendance by the public, and the reviewing officer will determine whether those other than objectors may participate.

(b) *Reviewing officer's response to objections.* (1) A written response must set forth the reasons for the response, but need not be a point-by-point response and may contain instructions to the responsible official, if necessary. In cases involving more than one objection to a proposed project or activity, the reviewing officer may consolidate objections and issue one or more responses.

(2) No further review from any other Forest Service or USDA official of the reviewing officer's written response to an objection is available.

§218.12 Timing of project decision.

(a) The responsible official may not sign a ROD or DN subject to the provisions of this part until the reviewing officer has responded in writing to all pending objections (see §218.11(b)(1)).

(b) The responsible official may not sign a ROD or DN subject to the provisions of this part until all concerns and instructions identified by the reviewing officer in the objection response have been addressed.

(c) When no objection is filed within the objection filing period (see §§218.26 and 218.32):

(1) The reviewing officer must notify the responsible official.

(2) Approval of the proposed project or activity documented in a ROD in accordance with 40 CFR 1506.10, or in a DN may occur on, but not before, the fifth business day following the end of the objection filing period.

(d) When a proposed project or activity is not subject to objection because no timely, specific written comments regarding the proposal were received during a designated opportunity for public comment (see §218.4), the approval of a proposed project or activity documented in a ROD must be in accordance with 40 CFR 1506.10 and 36 CFR 220.5(g), and the approval of a proposed project or activity documented

36 CFR Ch. II (7–1–13 Edition)

in a DN must be made in accordance with 36 CFR 220.7(c) and (d).

§218.13 Secretary's authority.

(a) Nothing in this section shall restrict the Secretary of Agriculture from exercising any statutory authority regarding the protection, management, or administration of National Forest System lands.

(b) Projects and activities proposed by the Secretary of Agriculture or the Under Secretary, Natural Resources and Environment, are not subject to the procedures set forth in this part. Approval of projects and activities by the Secretary or Under Secretary constitutes the final administrative determination of the U.S. Department of Agriculture.

§218.14 Judicial proceedings.

(a) The objection process set forth in this subpart fully implements Congress' design for a predecisional administrative review process. These procedures present a full and fair opportunity for concerns to be raised and considered on a project-by-project basis. Individuals and groups must structure their participation so as to alert the local agency officials making particular land management decisions of their positions and contentions.

(b) Any filing for Federal judicial review of a decisions covered by this subpart is premature and inappropriate unless the plaintiff has exhausted the administrative review process set forth in this part (see 7 U.S.C. 6912(e) and 16 U.S.C. 6515(c)).

§218.15 Information collection requirements.

The rules of this part specify the information that objectors must provide in an objection to a proposed project (see §218.8). As such, these rules contain information collection requirements as defined in 5 CFR part 1320. These information requirements are assigned OMB Control Number 0596–0172.
